

## HOT SPRINGS, ARKANSAS IS SWEEPED BY A TEN MILLION DOLLAR CONFLAGRATION

Area A Mile Long and  
Ten Blocks Wide Is  
Reduced to Ashes

2,000 ARE HOMELESS

Fire Fighting Forces of Hot  
Springs and Little Rock  
Prove Inadequate

ONLY FEW PERSONS INJURED

HOT SPRINGS, Ark., Sept. 5.—Fire which started in a negro cabin at 3:30 o'clock this afternoon was slowly dying out at the foot of West Mountain, the southern extremity of Hot Springs, at mid-night after reducing to a smouldering mass of wreckage an area more than a mile in length and from seven to ten blocks wide in the eastern section of the city. The monetary loss is roughly estimated at \$10,000,000. Governor Hays arrived in Hot Springs late tonight and probably will order a military patrol of the burned district tomorrow morning. United States troops also are expected from Little Rock to add to the guard on the military reservation.

In the path of the flames were manufacturing houses, hotels, a number of the more pretentious residences and public buildings, which are in ashes.

### Two Thousand Homeless.

It is estimated that 2,000 persons are homeless. So far as can be ascertained there were no fatalities and the few persons hurt suffered only minor injuries.

Among the buildings destroyed were: The city's light, water and power plants, county court house, high school buildings, Park hotel, Moody hotel, Princess hotel, St. Louis, Iron Mountain and Southern railroad station and shops; the Arkansas Sanitarium and smaller buildings by the hundreds were reduced to ashes.

But few of those whose homes were burned saved any of their household effects and guests of the hotels gave little heed to their valuable and luggage in their efforts to escape the flames.

The fire originated within several blocks of the United States army and navy hospital and took a south and east course.

Frail wood structures in the negro section about Church street and Malvern avenue, where the fire started, made more than ordinarily inflammable by an extended drought, burned like tinder. Driven by a wind the fire spread rapidly. Within fifteen minutes it was apparent that the fire fighting force of Hot Springs was inadequate and an appeal was made to Little Rock for aid. Apparatus and men were sent, but the fire was then beyond control. Dynamite was resorted to when it was apparent that water would be of no avail, but this also failed to check the progress of the flames.

### Wind Changes Course of Fire.

The burned district for some distance skirts the business section and several times the shifting winds headed the fire for the principal business section, but each time the free use of explosives and an opportune change in the wind saved it. Before nightfall the task of checking the flames was abandoned and the combined fire fighting forces turned their efforts toward keeping the fire away from the center of the city. This much was accomplished.

The city at mid-night was in darkness except from the glow of the dying fire, which cast shadows over a scene of desolation.

Early in the evening Mayor McClendon ordered all saloons closed and called a mass meeting of citizens at the city hall. Two hundred and fifty special officers were sworn in to patrol the fire swept district. There was no disorder. All the homeless have been cared for temporarily and plans have been started to systematize the work of succor tomorrow. Many offers of assistance in fire fighting apparatus, financial aid, food and clothing have been received, but it is believed that outside aid will not be needed.

Business was suspended tonight, except such as was necessary in providing for the immediate wants of those who suffered the loss of their homes.

Several Public Utilities Abandoned

As a result of the destruction of the water, light and power plant, street car service was abandoned and newspaper and other industries which have depended upon motive power from the city's plants, are crippled.

General Manager Dillon of the public utilities commission states that a temporary light and power service will be established within thirty days and within three months the public plants will be working to their capacity again. The natural gas supply was not interfered with.

## HEARING OF APPEAL SET FOR SEPT. 15

In Meantime Thaw May Be Kept  
at Coaticook, Sherbrooke or  
Taken to Montreal

TOWN BRINGS "SENSATIONS"

Jerome Is Arrested on Charge of Playing  
Poker and Released on Bail—Two of  
Thaw's Counsel Secure Writs

COUNCIL SPLITS OVER POLICE CHIEF

COATICOOK, Sept. 5.—Harry K. Thaw will be produced before the full king's bench of appeals at Montreal, on the morning of September 15. Meantime he may be detained here, or at Sherbrooke or taken to Montreal on a moment's notice, at the discretion of the immigration authorities. Two of his counsel, J. N. Greenfield and N. K. Lafamme, obtained a double writ—habeas corpus and prohibition—at Montreal today and while in a special train into Coaticook, where not long before the immigration authorities had ordered Thaw's deportation from the dominion.

Counsel for Thaw, who had remained in Coaticook, had announced that the writ was returnable for Thaw and a special train was made up to take the prisoner to Montreal tonight. A great crowd collected about the station where Thaw was confined and it was not until 8 o'clock that it became known that he might remain here several days because the writ is not returnable until September 15.

Coaticook Produces "Sensations." If ever a little town produced "sensations" Coaticook did today. First came Jerome's arrest and release on bail on a charge that he had played poker yesterday on railroad property with some newspaper man. Then came word that Thaw's lawyers had obtained in Montreal, the writ demanding his production in court there.

In the second place there is a split in the town council over Chief of Police John Boudreau. Thaw's original captor and petitioner for the subsequent writ of habeas corpus which forced Thaw out of jail at Sherbrooke into the hands of the immigration authorities. Some of the aldermen contend that Boudreau was influenced and acted unwisely in the habeas corpus matter and should resign. Among his opponents is A. J. Hopkins, chairman of the police committee of the council. Hopkins employs in his grist mill Millard Aldrich, the complainant against Jerome. Aldrich says he acted as a zealous citizen and his contention was sustained by A. C. Hanson, joint crown prosecutor, who caused the writ to be issued.

Jerome Leaves in Auto. Mr. Jerome left town in his automobile this afternoon. It was explained that he "had gone for a ride." His case is set for hearing before a magistrate tomorrow morning. Punishment on conviction of gambling on railroad property may range at the discretion of the court, from a fine, amount unspecified, to a prison sentence, the maximum of which is one year.

Meantime the special board of inquiry ordered Thaw's deportation to Vermont under two clauses of the immigration act, namely, that he had entered Canada by stealth and had within five years been an inmate of an institution for the insane. From both these decision Thaw's lawyers appealed.

The immigration officers headed by E. Blake Robertson, were powerless and Thaw remained in the detention room over the Grand Trunk railway station. Finally the Thaw lawyers in Montreal, J. N. Greenfield and N. K. Lafamme, chartered a special train and came here with the writ itself, serving it this evening.

Jerome's arrest was due to two causes and was not prompted in any way by the Thaw lawyers. One and all, they expressed indignation at the move and said they were ready to aid him.

## CONTINUE SEARCH FOR OPIUM ON TWO PACIFIC LINERS

Custom Officers Find Small Quantity  
of Drug Packed in Metal Shoe  
Heels.

San Francisco, Sept. 5.—Search for smuggled opium on the Pacific mail liner Manchuria and the Toyo Kisen Kaisha liner Chi Yo Maru was continued today, with the result that customs officers found a small quantity of the drug in a locker on the Chiyo Maru and uncovered another of the ingenious devices by which opium is brought into the country.

Unlike the \$4,400 worth of opium in the fore peak of the Manchuria which was contained in ordinary five tall tins, that found on the Chiyo Maru was packed in metal shoe heels. There were a dozen of these each containing about \$20 worth of opium and this led to a close but fruitless scrutiny of the footgear of the Chinese and Japanese crew. The metal containers were so shaped that they could be fitted into holes cut out of leather heels.

## MORGAN FIRM BREAKS WITH NEW HAVEN ROAD

J.P. MORGAN PERSONALLY PRESENTS  
LETTER TO COMMITTEE

No Reason For Action Given—Body  
Authorizes President to Install  
Without Stint, Safety Appliances  
and Signals.

NEW YORK, Sept. 5.—J. P. Morgan & Co. served notice today upon the New York, New Haven & Hartford Railroad company of their intention to end their connection as fiscal agents of the road. This notice was made public today by the New Haven's legislative committee. The committee authorized the president to install without stint safety appliances and signals to insure the safety of passengers.

No reason was given by officials of the New Haven system for the withdrawal of J. P. Morgan & Co. as fiscal agents of the road. Announcement of the withdrawal was made by the legislative committee at the conclusion of its meeting today and some little time after J. P. Morgan had left for his summer home. Other members of the Morgan firm also had left the city for the week end and only conjectures were offered as to the reasons for the action.

Morgan Presents Letter. The letter notifying the committee of their intention to sever financial connections with the New Haven was presented by Mr. Morgan personally. Mr. Morgan told the legislative committee that similar letters had been sent to the boards of directors of the Boston and Maine and the Maine Central railroads, New Haven subsidiaries.

For many years the Morgan firm has acted as the financial agent of the New Haven road and within the last few months it had undertaken to underwrite the issuance of \$67,000,000 six per cent debenture bonds, to be used principally for refunding purposes and for betterments and improvements work. Much of the committee's time today was taken up with a discussion of the Wallingford wreck.

Order Work Pushed Rapidly. President Elliott made a statement to the committee saying that on Wednesday he had ordered the prosecution of the work of installing signals between New Haven and Springfield pushed as rapidly as possible. The committee approved the expenditure of \$356,000 for this purpose. After the committee meeting, President Elliott said the company was expediting with all possible haste the construction of steel cars. He remarked that it was not due to any financial inability on the part of the road to secure steel car equipment more quickly but rather the inability of manufacturers to supply their wants. Orders have already been placed, he said, for 211 steel passenger cars and orders for 50 more will be given in a few days.

Signal System Responsible. New Haven, Conn., Sept. 5.—The so-called "banjo" signal system installed on the New Haven railroad nearly twenty-five years ago, was charged in sworn testimony today with responsibility for the death of twenty-one persons in the wreck on that road last Tuesday.

The testimony was given at the interstate commerce commission's inquiry to determine the causes of the disaster. The "banjo" system was admitted by officers of the road to be inferior to up-to-date systems in use on other roads. Lacking a "caution" signal as protection against a danger signal as in modern systems, the "banjo" type, according to half a dozen trainmen, caused engineers to "drift by" their signals in foggy weather.

That an order to stop the White Mountain Express at Wallingford, three miles north of the wreck, was sent from New Haven and then rescinded, was one feature of the testimony. This was told by John C. Kelly, the New Haven train dispatcher, who produced train sheets showing that the White Mountain brought up the rear of a procession of six trains which passed Wallingford within thirty-two minutes. The first five of them, Kelly testified, were on the ten mile stretch between Wallingford and Airline Junction, just north of here, all at the same time.

Kelly said he had originally given the order to stop because of the long time the first of the five trains took to reach Airline Junction and had been rescinded on receiving word from the Junction that the train had arrived there.

Murray, who with Engineer Miller was arrested last night by Coroner Mix and accused of "criminal" responsibility for the wreck, was released today on bonds furnished by order of President Elliott of the New Haven. Miller is also in bonded liberty.

Not Hostile to Elliott.

At his country home tonight J. P. Morgan said that the action of his banking firm in severing financial relations with the New Haven railroad could in no sense be termed a hostile move toward President Elliott or the railroad. He said: "The action was taken wholly in order to leave the new administration of the railroad free handed to make its own financial arrangements."

AROUSES COMMITTEES' ire

Washington, Sept. 5.—James A. Emery, Washington representative of the national association of manufacturers aroused the ire of members of the house lobby investigating committee today by an indirect comparison of the methods of Martin H. Mulhall, the lobbyist with those of Congressmen.

## NEWLANDS TO STAND BY TARIFF MEASURE

Nevada Senator Assures Col-  
leagues He Will Support Bill  
as It Reached Senate

INCOME DIFFERENCES SETTLED

Williams Submits Sub for the Meat In-  
spection Provision—Authorities Must  
Certify Imported Meats

SUTHERLAND ENTERS INTO DISCUSSION

WASHINGTON, Sept. 5.—Senator Francis G. Newlands, of Nevada, whose stand on the tariff bill had caused his Democratic colleagues some concern, brought relief to the minds of administration leaders up to his return from the west today. The Nevada senator, though determined to make a fight within the party lines, assured his colleagues that he would stand by the bill as it reached the senate for a vote.

Senator Smith of South Carolina failed in the Democratic caucus today to modify the proposed tariff on cotton futures, the caucus refusing to reconsider its action approving the amendment postponed by Senator Clarke of Arkansas, designed to curb gambling in cotton on exchanges. The amendment as it stands in the bill places a tax of one-tenth of one cent a pound on all cotton sold for future delivery, actually a refund.

Income differences within the majority were settled with an amendment compromising between the highest rates on large incomes advocated by the original Democratic "insurgents," Senators Thompson Reed and Vanderman and the lower rates of the original bill.

Work was resumed on re-committee portions of the bill and Senator Williams submitted a substitute for the meat inspection provision, the committee having practically adopted the amendment postponed by Senator LaFollette.

The amendment approved by the senate provides that no meat shall be imported unless certified by proper authorities in a form to be prescribed by the secretary of agriculture to have been derived from animals entirely free from disease, to be wholesome and in every respect fit for human food and to contain no poisonous or deleterious dyes, preservatives or other ingredients. It also provides that if the president should find that the system of meat inspection maintained by any foreign country is not a substantial equivalent, or as efficient as the system in the United States, or that reliance may not be placed on foreign certificates of inspection, he may proclaim that no meat shall be imported from such country.

Senator Sutherland, of Utah, entered into a general discussion of the bill. He said he did not believe that the cost of living would be appreciably reduced by the postponed new tariff bill "unless it be by lowering the standard of living and charged that bill was sectional in character and unequal in its provisions.

## ONE GLASS OF BEER COST OUTFIELDER BODIE \$600

Breaks Promise Not to Take a  
Drink During Season and Loses  
Bonus He Was to Receive.

St. Louis, Mo., Sept. 5.—The most expensive glass of beer ever sold over a local bar was sold to Outfielder Ping Bodie of the Chicago Americans last night and Bodie after his drink was notified that the "nickel beer" would cost him \$600 in addition to the five cents he paid the bartender.

When Bodie signed with the Chicago team last spring he promised not to take a drink during the present season and if he kept his promise he was to receive a bonus of \$600. Last night Ping was feeling somewhat dry and believing that he had earned a bout \$550 of the bonus, stepped out to refresh himself with a beer. While he was consuming the brew Manager Callahan stroled into the bar-room.

"How's the beer?" asked Callahan.

"Fine" was Bodie's reply.

"It ought to be fine. It is costing you over \$600," said Callahan. "What do you mean by six hundred dollars?" asked the athlete.

Callahan then explained that the bonus could not be paid and Bodie was a more refreshed, a wiser, but a poorer man.

NO LIVES LOST AT OCAOKE.

Beaufort, N. C., Sept. 5.—No loss of life occurred on Ocracoke or Portsmouth Islands in Pamlico sound during the terrific storm, Wednesday night according to reports received here tonight. It had been reported that Ocracoke Island was swept by the sea and that several hundred persons had perished. The cable is reported to have swept past both Ocracoke and Portsmouth Islands though doing material damage. At Atlantic, a few miles south of Portsmouth Island, considerable damage was done. Pamlico Sound today was strewn with wreckage of small craft, uprooted trees and dead animals.

## ONE KILLED AND EIGHT INJURED IN TORNADO

STORM TEARS DOWN TENT OF  
CIRCUS AT ALBIA, IOWA

Funnel Shaped Cloud Descended Not  
More Than 300 Feet From Tent  
and Struck Big Top With Full  
Force.

ALBIA, Iowa, Sept. 5.—One person was killed and eight seriously hurt this afternoon when a small tornado tore down the tent of the Yankee Robinson circus shortly after the afternoon program began. The dead—  
Edward McConville, 12 years old, Albion, struck on head by falling stake.

The seriously injured:  
Earl Odoffer, Albion, four ribs broken, internal injuries; may die.  
Mrs. Tony Trevisol, Albion, scalp wound.  
S. Frankhr, Jersey City, N. J., scalp wound.  
Joseph Anson, Kansas City, scalp wound.

Three months old baby of Mr. and Mrs. L. L. Bishop, Lovilla, skull fractured.  
Edward Cunningham, Albion, scalp cut.  
Edward Mork, Albion, hand broken by falling pole.  
Stephen Quick, Albion, shoulder blade broken.

The funnel-shaped cloud descended not more than 300 feet from the tent. The storm struck the big top with full force. All the ropes snapped and the poles collapsed.

## HANER ISSUES STATEMENT EMPHATICALLY DENYING CHARGES

Declares That Only Healthy Hogs  
Were Sold for Meats, the Others  
Going to Packers for Rendering  
Purposes.

Springfield, Ill., Sept. 5.—Phil S. Haner, of Taylorville, whose resignation was accepted Thursday by Governor Duane after eight years service as chairman of the state board of livestock commissioners, tonight issued a signed statement in which he emphatically denies that there has been any speculation or graft on the part of the board or any of its agents.

"There is no justification for any charges of graft or fraud on the part of the board or any member thereof," says Haner. Haner denies that he purchased in the name of the state, as charged in the civil service commission's report to the governor, "razor back" hogs and reimbursed himself by taking an equal number of the state's fat, healthy hogs. On the other hand he says he suffered a financial loss in the transactions, the full details of which were known to the members of the commission.

In regard to the charge that cholera hogs were sold for meat Haner says that only healthy animals were sold for this purpose, the others going to various packing firms for rendering purposes.

"The only basis for the charge that serum was sent free of charge outside the state," says Haner, is in the fact that three bottles of fluid was sent to Price Smith of East St. Louis. We afterwards found out that his firm was in Missouri; I know of no sales of serum and the report does not show that any was sold."

"It is charged," says Haner in his statement, "that the board paid William Baker for 18 months time when he was not at work. This is the same William Baker who contracted 'lumpy jaw' while at work at Chicago and for whose benefit the ex-plantor a few months ago appropriated \$19,000."

## FIVE SERIOUSLY INJURED WHEN EXPRESS RUNS DOWN AUTO

A Mother, Her Daughter, Her Two  
Sons and a Third Young Man Hurt  
Probably Fatally at Chicago.

Chicago, Sept. 5.—A mother, her daughter, her two sons and a third young man were injured, probably fatally, when the St. Louis Express, a passenger train on the Chicago & Eastern Illinois railroad, struck an automobile in which they were riding near South Chicago tonight.

Mrs. Mathilda Wahlstrom, her daughter Ruth and sons Harold and Lillend, were the most seriously hurt. All were taken to a hospital. Fred Bristol, it is said, may recover.

## WEATHER INDICATIONS AND TEMPERATURES

Washington, Sept. 5.—For Illinois: Fair Saturday and Sunday, warmer in northeast portion, light east and southeast winds.

Temperatures.  
Chicago, Sept. 5.—Current, maximum and minimum temperatures to-day were:

	Current	High	Low
Boston	58	62	54
Buffalo	64	70	50
New York	64	70	66
New Orleans	80	86	68
Chicago	73	76	69
Detroit	72	74	56
Omaha	74	100	76
St. Paul	90	96	78
Helena	74	80	56
San Francisco	64	64	58
Winnipeg	72	78	62

## CAMINETTI FOUND GUILTY ON ONE COUNT

Verdict Reached by Jury After  
Long Debate Corresponds With  
Governments Contention

GUILTY ON SINGLE COUNT

Is Convicted on Count of Transportation  
and Aiding in Transporting Lola Norris  
to Reno for Immoral Purposes

DIGGS STILL TO FACE PERJURY TRIAL

SAN FRANCISCO, Cal., Sept. 5.—Farley Drew Caminetti, son of the commissioner general of immigration, was found guilty late today on one count of the indictment charging him with violation of the Mann white slave act.

The jury was out three hours and took eight ballots. From the first, the vote stood ten to two for conviction and finally the two recalcitrants agreed to compromise by finding a verdict of guilty on one of the four counts charged.

Caminetti took the verdict lightly, smiling a forced smile and nudging his brother. First he lifted his little daughter Naomi, who was playing at his feet, and placed her carefully in her mother's lap. Then he shook hands with his lawyers and with Diggs, who had been sitting nearby. His mother and wife showed no emotion. They sat with lowered heads, gazing into their laps.

Roughly speaking, the verdict corresponds with the contention of the government which was that Diggs was the self-constituted boss and Major Domo of the party and Caminetti more or less of a passive and pliant agent.

The finding of the jury was that Caminetti was guilty on the single count of transportation and aiding in transporting Lola Norris to Reno for immoral purposes. It did not consider him responsible for Marsha Warrington's elopement with Diggs and it refused to believe that Miss Norris had been enticed into going.

Diggs, however, has still another indictment hanging over him. With Charles B. Harris, of Sacramento, formerly his attorney, he is accused of subordination of perjury. Nellie Barton, a friend of Marsha Warrington, testified during the Diggs trial that Harris and Diggs had coached her in testimony which she, in turn, was to drill into Marsha Warrington, for use on behalf of Diggs. The "dear pickles" letter in which Diggs urged Miss Warrington to "rack her brain" for the last instructions she had given her was additional evidence to the same purpose.

The perjury trial will be called before Judge Van Fleet on Wednesday, the day of the sentences.

## SPARKS FROM THE WIRE

WASHINGTON, Sept. 5.—Special agents of the Chesapeake & Ohio Railway company filed up the famous "armored" car which figured so prominently in the Paint creek coal strike, according to testimony today before the senate special committee investigating the recent strike in the West Virginia coal fields.

HAVERFORD, Pa., Sept. 5.—Harvard players will contest for the intercollegiate tennis title between themselves here tomorrow. R. Norris Williams, second, will meet the winner of the J. J. Armstrong-W. M. Washburn match in the morning.

PITTSBURGH, Pa., Sept. 5.—Chicago defeated Boston 9 to 6 today in the tournament of the Union Printers' National Baseball league. The battle for the championship of the league will be staged at Exposition park tomorrow with Chicago and Washington competing for honors and the Garry Herrmann trophy.

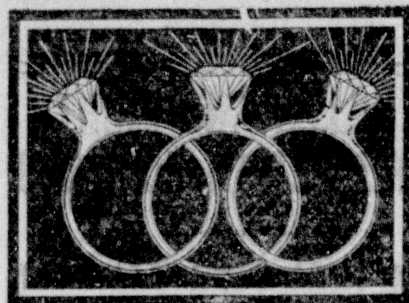

LITTLE ROCK, Ark., Sept. 5.—Lee Simms, a negro, was electrocuted here today for attacking a white woman in Prairie county, July 28, last. He is the first person to be executed since the passage of the state law substituting electrocution for hanging. One provision of the law forbids all newspapers in the state publishing anything pertaining to the execution, except the fact that it had taken place.

WASHINGTON, Sept. 5.—Prominent bankers assured the senate banking and currency committee today that they thought any problems of credit—price contraction resulting from enactment of the pending administration currency bill could be "worked out," so that the country's business would not be seriously affected.

MUELHAUSEN, Germany, Sept. 5.—Fifteen persons are dead here as the result of a school teacher named Wagner running amuck last night with several revolvers and a plentiful supply of ammunition. Eight persons died shortly after Wagner opened up his murderous fusillade, and seven others of twenty wounds died succumbed today. Four more persons are in a precarious condition.

## RINGS OF ALL KINDS

From wedding rings to baby rings are shown here this week.

Solitaire diamond rings, signet rings, birthstone rings, chased gold rings and the plain gold band of the wedding ring, suitably inscribed if you like.

We Do Repairing.

## Flour is the Cheapest And Best Food

One pound of wheat flour, costing 2 1/2 to 3 cents, yields twice as much nourishment as a pound of meat costing 15 to 30 cents per pound.

These are the official figures. Printed in U. S. Agricultural Bulletin No. 141. Flour is the ONLY necessity that is still cheap. Two pounds of best butter costs as much as a whole 24 lb. sack of CAINSON FLOUR. Two (or three) dozens of eggs, according to the season, cost the same. Use more

# "Cainson Flour"

(Reg. U. S. Pat. Off.)

and high food prices will cause you little worry. Among the appetizing and wholesome things which are easily made are bread, cakes, pies, tarts, rolls, shortcakes and muffins.

You Are Sure of Results With "Cainson Flour"

ORDER "CAINSON FLOUR" FROM YOUR GROCER TODAY

**Jas. McGinnis & Co.**

## Ordering Coal for the Fall

It's hot now, but the fall rush for coal will begin within a few weeks. Mine operators are predicting a very busy time. A cold winter is certain to follow such hot weather, they say. We will be glad to talk to you about your fall and winter fuel needs.

We are quoting these prices:

Springfield Coal.....12c bu—\$3.00 per ton  
Carterville Coal.....13c bu—\$3.25 per ton  
Hard nut coal.....—\$8.50 per ton  
Hard egg coal.....—\$8.25 per ton

There's only a fair profit at these prices. The quality and the service will please you.

### MISSIONARY SOCIETIES ELECT ANNUAL OFFICERS

Nominating Committee of the Combined Missionary Organizations Makes Report—Election at Woodson.

The nominating committee appointed by the Young Woman's Foreign Missionary Society and the Woman's Foreign Missionary Society of Grace M. E. church met Friday and perfected their union organization by electing the following officers:

President—Mrs. J. W. Miller.

First vice president—Mrs. Cogswell.

Second vice president—Mrs. John F. Berry.

Recording secretary—Mrs. Cass Hamm.

Assistant recording secretary—Mrs. George E. Baxter.

Corresponding secretary—Miss Elizabeth Grove.

Treasurer—Miss Lula Hay.

Mite box secretary—Mrs. Claude Reid.

Assistant mite box secretary—Mrs. Grant Graft.

Superintendent of literature—Mrs. R. A. Gates.

Secretary of Young People's work—Mrs. Thomas Hopper.

Assistant superintendent Young People's work—Miss Louise Capps.

Superintendent Children's work—Mrs. E. D. Herald.

Program committee—Mrs. R. A. Gates, chairman, Miss Elizabeth Groves, Mrs. Ida Marsh and Mrs. J. R. Davis.

The society will meet the first Tuesday of each month.

C. W. E. M. of Woodson.

The Christian Woman's Board of Missions of the Christian church of Woodson held a meeting Thursday afternoon at the home of Mrs. Louise Henry.

It was the occasion of the annual business session and the following officers were elected:

President—Mrs. Sarah Crahn.

Vice president—Mrs. Ida Whitlock.

Secretary—Mrs. Eva Megginson.

Treasurer—Mrs. Emma Self.

Following the business session light refreshments were served. The members of the society will be guests next Thursday of the Presbyterian missionary society of Woodson, the meeting to take place at the home of Mrs. John Hogland.

WILL SELL FURNITURE.

Having sold my home, 133 Park street, my furniture and a first class square piano are for sale at a sacrifice. Enquire at house or Russell & Lyon's jewelry store.

A. E. Lyon.

### ILLINOIS WOMAN'S COLLEGE.

#### College of Music.

Offers unusual facilities for thorough work in all branches of music. Students studying at Illinois Woman's College have free admission to entertainments in the Artist's Course. Music catalogues may be had at book stores and at music stores. Arrange now for your courses of study. Call at Illinois Woman's College or the Main office, Illinois phone 415 or 102 Bell phone. Visitors always welcome.

### CENTENNIAL OF NAVAL VICTORY

Portland, Me., Sept. 5.—One hundred years ago today the United States ship Enterprise and the British cruiser Boxer met off the Maine coast and engaged in battle. The British were defeated and their vessel captured. The victory of the Americans came five days before Perry's triumph on Lake Erie, and was peculiarly welcome since it relieved the popular depression caused by the capture of the Chesapeake by the Shannon three months before. The engagement of the Enterprise and the Boxer attained a mournful celebrity by the reason of the fact that both Commanders Burrows of the American ship and Blyth of the British ship were slain. Longfellow, then a child, heard the booming of the guns over the tide, and as a poet celebrated the tragedy of the two captains who lie buried side by side in a Portland cemetery.

### FRESH OYSTERS, BARR & HUFFMAN.

TO THE PUBLIC.

### MADE FINE CATCH.

W. M. Bishop and Richard Vasey proved good fishermen yesterday when in an hour's time they caught thirty-six crapple from Morgan lake. Some of them weighed a pound each.

### ECHOES FROM ALEXANDER

Alexander Happenings Always Interest Our Readers.

After reading of so many people in our town who have been cured by Doan's Kidney Pills, the question naturally arises: "Is this medicine equally successful in our neighboring towns?" The generous statement of this Alexander resident leaves no room for doubt on this point.

John William Ambaugh, farmer, Alexander, Ill., says: "About two years ago I took several boxes of Doan's Kidney Pills and will say that they did me more good than all the doctors I had tried. I have been bothered very little with my back since I used Doan's Kidney Pills."

The above is not an isolated case. Mr. Ambaugh is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy, ask distinctly for Doan's Kidney Pills, the same that Mr. Ambaugh had. See all stores. Foster-Milburn Co. Props., Buffalo, N. Y. (Adv.)

### THE DUST AND THE HEAT.

It is all very well to say you do not mind the dust and heat and that during the long weeks of the summer you have become used to the blistering sun and the air full of dust particles. If you are injured to these things well and good, but the average person finds much just cause for grumbling about the weather.

"And talking about hot weather," said a well known citizen yesterday, "I do not understand why it is that notwithstanding all of these hot dry weeks and days that every door at my house is so swelled that I can hardly open them. Yesterday I pulled the knob off opening my kitchen door and the door at the front of the house now fits just as tight. It seems to me that this season doors and door sills would shrivel up instead of expanding."

If you want to hear some real vehement discussion of the hot weather and the dust, just ask some owner of heavy wagons about his tire troubles. The blacksmiths are all busy these days setting wagon tires and after the work is done it doesn't last long and a good many heavily loaded wagons have been disabled on the streets. Some wagon owners have tried soaking wheels each morning before starting out for the day's work, but their experience has been that after the sun has blazed away at the wheels for three or four hours that the rims seem to contract more than they have expanded from the soaking process.

The stretch of experimental road which was laid recently on North Main street just north of Oak street, is showing the effects of the heat. In several instances the expansion joints do not seem to have been of sufficient width and some cracks clear across the roadway have resulted. The joints were originally filled with asphalt, but the great and continued heat seems to have forced the asphalt out and the parts of the pavement, together in a way which has caused the cracks. The defect can no doubt be remedied, but it will be quite a task to do it.

One liveryman who keeps a number of horses for hire said yesterday that he was now letting his horses out only for night drives. He said that the roads are so terribly dusty and the weather so generally torrid that even careful drivers injure horses before they realize that the animals are being pushed along too rapidly in the glaring sun.

Out in the country there is some special activity just now in the way of building and filling silos and this may be accounted as one of the good effects of the long drought. Farmers are being impressed more and more that before they must get all possible out of their corn crops. So to care for everything that is grown in their corn fields they are building silos and having the corn cut up into ensilage and stored away for the fall and winter use. If there had been a normal rainfall this year and the corn crop better, there would be little doing in corn fields just now. Men who own threshing outfits are glad to see the increase in the number of silos for an engine is necessary in running a corn cutting or ensilage machine and the season will supplement the regular threshing time.

Never have I seen the dust on the country roads so deep, said an auto driver yesterday. I have just been out in the country about ten miles and it was the hardest driving I ever had and the most disagreeable. There was just one good thing about the trip and that was that I met very few other drivers. I suppose the rest of them had enough good judgment to stay at home.

But someday soon it is going to rain a lot and when the moisture gets started to coming the weather "shark" says that there will be a downpour every little while that the streams will be running, the fields green, the roads dustless, the air fresh and cool. Let us hope.

### SPECIAL PRICES TODAY IN ALL DEPARTMENTS AT HERMAN'S.

### WHIPPLE ACADEMY.

Whipple Academy, the preparatory department of Illinois college, prepares boys and girls for all of the best colleges and universities of the country and also trains them for practical work of life. The school has always been distinguished for its high standards of scholarship. For information call on Principal W. L. Harris or President C. H. Rammelkamp, Illinois phone 454. Registration September 22.

### RETURN FROM SUMMER TRIP.

Rev. Mr. Anna Mrs. Post returned yesterday from their summer trip at McLehurs on Lake Rosseau, Ont. They declare that it was the most delightful vacation of their lives. The weather was charming and the scenery of the lake district of the Canadian highlands makes Muskoka one of the world's beauty spots.

Dr. Post will open the year's service at the Congregational church Sabbath morning with the celebration of the Lord's Supper.

Today as in the past Garland & Co.'s clothing works the highest tide of style and economy.

Diarrhoea Quickly Cured.  
"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gehhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers. (Adv.)

## More Women Suffer from Kidney Trouble Than Men

Is Often Mistaken for Female Weakness, but Yields to the Use of Foley Kidney Pills.

A prominent physician in a big flourishing city recently said, "Do you know that there are more women suffering from kidney trouble than men? And more than that, so many of the women who come to me thinking they have female trouble are in reality suffering from kidney trouble." When they take Foley Kidney Pills for their kidneys and bladder, their troubles are soon cured.

Nervous, played out, tired women, constantly dragged down with pain, suffering from weak backs, sleepless, without appetite and the victims of headaches, use Foley Kidney Pills without fear, and with entire confidence in their rebuilding and curative

qualities. The change to health strength and vitality will follow the use of Foley Kidney Pills so sure as morning follows night. And all because Foley Kidney Pills are one of those good, honest and reliable medicines that for a little cost can do big things for your benefit. Foley Kidney Pills begin to work for you just so soon as you take them, and even the first day's treatment will have a good effect. Obey the impulse to take them NOW, and in 24 hours you will be on the up grade. Neglect yourself, and you are paving the way for serious complications and maybe a dangerous illness. Use Foley Kidney Pills, which will bring you back to sound health.

**RAILROAD NOTES.**

Joseph Warner, the veteran locomotive engineer of the C. P. & St. L., is steadily improving from his attack of paralysis and it looks now as though he would before very long be as well as ever, a consummation his numerous friends most devoutly wish.

Clark Green arrived in the city yesterday on the Burlington with his famous race horse. He has been to Bushnell and Wyoming.

W. A. Furr was loading his household goods yesterday on the Burlington for his new home in Carbondale.

Bluford Violett, roadmaster of this division of the Burlington is enjoying his annual vacation and was through here yesterday from his home in Beardstown.

Mrs. Dickson of Beardstown is in the city with her husband at Passavant hospital. The gentleman is the broken man who was so severely injured on the Burlington recently.

Fred Mathews and wife left yesterday on the Burlington for their new home in Spokane, Wash.

Deputy Sheriff Andrews went to Franklin yesterday on the Burlington.

William Kastrup went to Waverly yesterday on the Burlington.

In the Alton yards is a huge lot of walnut logs which have been bought for a St. Louis lumber company by Robert Wakely of this city.

The best of them experts say, will be peeled, partly squared and shipped to Europe where that kind of lumber is much in demand.

Walter Quinlan, a boilermaker working at the car shops, was driving wheels when a piece of metal hit his right eye making a painful wound. Medical aid was at once summoned and it is hoped that the sight of the member will be saved.

Number 40, a freight engine, has been sent out of the C. P. & St. L. shops as good as new and is now in Springfield awaiting orders.

The office of general superintendent has been abolished on the C. P. & St. L. and that of superintendent substituted. Thoas. H. Pendell, the new incumbent, was in the city yesterday getting acquainted with the property of the road here. He comes from the Pierre Marquette road and is highly spoken of as an experienced and capable railroad man and much is expected of him.

E. E. Barrows has been appointed chief clerk of maintenance on the C. P. & St. L. road.

A supplementary track was being laid near the North Main street crossing yesterday to enable the street railway company to load the extra cars brought here for the chautauqua and send them to Springfield.

D. C. Fredericks, car service agent for the C. P. & St. L. made the city a visit yesterday in company with Mr. Penfell the new superintendent.

A change in the river channel at Hannibal has made it necessary to change the draw in the Wabash bridge and trains have been somewhat delayed on account of it.

Rain coats and umbrellas, Frank Byrns Hat Store.

BIRTH RECORD.

Born to Mr. and Mrs. Fred Frankie of Indianpolis, Ind., Aug. 22, a daughter, Dorothy Clare. Mrs. Frankie was formerly Miss Kathleen Wells of this city.

Mr. and Mrs. William Kierl of Peoria are the parents of an eight-pound son born to them Thursday. Mrs. Kierl was formerly Miss Grace Wells of this city.

**RETURN FROM VACATION.**

Messrs. Max L. Swarthout and Donald Swarthout head of the music department of the Woman's college have arrived in the city after a pleasant vacation in the north. They went in their Rambler automobile, accompanied by their mother, Mrs. Ella Swarthout, Rasseis Swarthout, son of Max Swarthout and Supt. C. P. Gillett of the State school for the deaf. They spent most of the time at Lake Shawano, 1 1/2 miles north-west of Milwaukee. The auto trip going and coming included two different routes so that new country could be visited. The Mesdames Swarthout and children except Rasseis did not go on the trip but spent the past weeks with kinfolk at Paw-paw, Ill.

**OIL MEAL.**

"Pure old process Oil Meal" will give twice as much satisfaction as any new process, no inflation. It is pure—contains no screenings and will go nearly twice as far in feeding value.

Plenty of "Pure Old Process Oil Meal," Bran and Shorts at Brook Mills.

**TO VOTE ON SALOONS.**

A petition has been filed with the county clerk of Cass county, by Virginia citizens, whereby the licensed saloon question will be voted upon this fall. East Beardstown will also vote on the saloon question.

### BELIEVE MOVE IS EFFORT TO IGNORE WILSON'S REPRESENTATIVE

De Zamacona Personally Was Unwilling to Admit He Was Proceeding to Capitol in Behalf of Huerta.

Vera Cruz, Sept. 5.—The report that Manuel De Zamacona, who left here yesterday, is proceeding to Washington to negotiate direct with President Wilson on behalf of President Huerta is considered to be an effort on the part of the Mexican government to ignore John Lind, President-elect, who is believed to be not improbable that Mr. Lind will not be ignored and that he may be expected to place in President Wilson's hands a protest against such a change in procedure. Mr. Lind has not been informed officially of the character of the Senator De Zamacona's trip. Senator De Zamacona personally was unwilling to admit he was proceeding to Washington on behalf of Huerta and it is believed to be not improbable that Huerta will withhold confirmation of it until it is seen how Senator De Zamacona is received in Washington. It is considered that if President Wilson should deal with Senator De Zamacona it would be tantamount to the elimination of Mr. Lind.

Likely to Await Envoy's Arrival. Washington, Sept. 5.—Developments in the Mexican situation are likely to await the arrival in Washington of Manuel De Zamacona, personal envoy of the Huerta government, to continue with the Washington administration the negotiations begun by John Lind, personal representative of President Wilson in Mexico. Administration officials had not decided tonight whether they would receive Senator De Zamacona unless he brought positive assurances of Huerta's elimination from the situation in Mexico and was ready to act upon the other points in the American proposals for the establishment of peace.

Offer Half Rate Fare. St. Louis, Mo., Sept. 5.—Officials of the Missouri-Pacific and Iron Mountain railroad with headquarters here tonight notified Secretary of State Bryan they would join the international and Great Northern railroad in offering a half rate fare to all refugees from Mexico properly identified by the state department.

A score of models in suits and overcoats to choose from at Garland & Co.

### THREE ARMED MEN HOLD UP OFFICERS AND GET \$16,000

Money Represents Payroll of J. G. White Construction Company—One Deputy Shot.

Columbia, S. C., Sept. 5.—Three men each armed with two revolvers this afternoon held up a deputy sheriff and two employees of the J. G. White construction company at Parr Shoals, twenty miles from here and took from them \$16,000 in currency representing the payroll of the company, which is building a huge new dam. Tonight seven hundred employees of the company, together with the sheriff and deputies of four counties, with blood-hounds, are hunting for the robbers.

J. S. Joyner, the deputy sheriff, who accompanied the pay clerks, resisted the bandits and was shot, the bullet taking effect in the thigh. His wound was not serious.

School suits with extra pair pants at special prices. Knoles.

### BELIEVE ATTORNEYS DESTROYED MINERS' ARBITRATION PLAN

Darrow and A. F. Rees, Chief Counsel of the Calumet and Hecla Mining Company Hold Conference.

Calumet, Mich., Sept. 5.—At a conference today between attorney Clarence Darrow, of Chicago and A. F. Rees, chief counsel of the Calumet and Hecla mining company it is believed the arbitration plan of the miners' federation recently submitted to Governor Ferris, was destroyed.

The plan provides for the appointment by operators and strikers of an impartial commission the governor or his appointee to be the odd member, eliminates recognition of the Western Federation of Miners as an issue but includes the right of the men to organize and submit differences. One of the operators stated this afternoon that the plan proposed would be rejected as the operators believe it practically means recognition of the Federation.

### FRESH OYSTERS. BARR & HUFFMAN.

ANNOUNCES SYNOPSIS OF TRIP. New York, Sept. 5.—Col. Roosevelt announced today a brief synopsis of his coming trip to South America. The colonel said he would leave October 4 on the steamship Van Dyke and go direct to Rio Janeiro from there he will go to Sao Paulo, Buenos Aires, Cordoba, Bahia Blanca, Valparaiso and back to Santiago. He expects also to make a tour through the Andean forest accompanied by two naturalists. This part of the journey will be under the direction of the American museum of natural history.

Ripley Springs Water. Elnie's.

U. S. TEAM TAKES FIRST. Camp Perry, Ohio, Sept. 5.—The United States revolver team today took first place with a score of 2,319. The Argentine Republic team was second with 2,096 and Peru third with 1,607.

### TWO KILLED WHEN TRAIN STRIKES AUTO

ECK WILDAY AND CHARLES PATE DIE INSTANTLY.

Guy Wilday and Henry Deppe Badly Injured When Burlington Freight Runs Down Machine at Arenzville.—All Residents of Meredosia.

Eck Wilday and Charles Pate were instantly killed, Henry Deppe was seriously injured and Guy Wilday, a son of the dead man, badly shaken up and bruised, Friday evening about 5:30 o'clock when the automobile in which they were riding was struck by an extra northbound Burlington freight, No. 5228, at what is known as the west crossing at Arenzville.

The men, all of whom resided in or near Meredosia, left their homes about the middle of the afternoon Friday for a business trip to Arenzville in Mr. Deppe's Reo automobile. When the accident happened they were on their way and Guy Wilday was driving the machine.

The automobile was struck nearly in the center and carried about one hundred yards beyond the crossing. The bodies of both the dead men were run over by the train and that of Mr. Wilday was mangled almost beyond recognition. His skull was fractured in three different places, he was disemboweled and his limbs were severed from his body. Mr. Pate's skull was fractured and one of his limbs was cut off near the thigh joint.

Mr. Deppe was found lying under the wreck of his automobile and although the extent of his injuries cannot be determined for some time, his condition is considered serious. He sustained a cut on top of the head and his face and hands were badly cut. Although no bones were broken he seems to be injured internally and is in a dazed condition.

Guy Wilday, a son of the dead man, was tossed from the machine to one side of the tracks by the train and although he was dazed for some time, his injuries are not expected to develop seriously. He suffered a cut on the right side of his head and both limbs were bruised and scratched.

### Poultry Workers First on Scene.

Some men who were working in a poultry yard near the crossing were the first to the scene of the accident and they called Dr. J. M. Swope of Arenzville, who arrived in a few minutes. Mr. Pate and Mr. Eck Wilday were both dead when he arrived and from the condition of their remains it is thought that death was instantaneous. The injured men were attended by Dr. Swope and were taken to their homes by Louis Deppe, a son of the injured man, in an automobile.

The remains of Messrs. Wilday and Pate were taken to the undertaking establishment of Brookhouse Brothers in Arenzville and C. E. Williamson of this city went to Arenzville to take charge of the bodies. Coroner George Barneyeast of Beardstown was notified and is expected in Arenzville this morning at 8:20 o'clock to hold an inquest. After the accident the train, which preceded the afternoon northbound passenger, went on to Beardstown and the crew, of which Samuel Liston is the engineer, is expected in Arenzville this morning to testify at the inquest.

### Several Accidents at Crossing.

At the crossing where the accident occurred a number of serious collisions have taken place. About two years ago a son and daughter of John Zulauf of Arenzville were struck by a train while driving home in their buggy and both of them were badly injured. Just a short time after the accident the Zulauf people a horse was killed at the same crossing, the people in the vehicle escaping injury. Just before the road crosses the railroad tracks there is a short hill and only a very small part of the right-of-way can be seen. Near the tracks is an abandoned brickyard and the view was further obstructed at the time of the accident by some empty freight cars that were standing on a sidetrack. According to one of the injured men, none of the four passengers in the automobile saw or heard the train until it struck them. A short time after the accident to the Zulauf people a watchman was placed at the crossing and kept there for some time, but later an automatic alarm was placed at the crossing. Some men who have driven by there state that the bell does not ring part of the time and others say that a man driving by in an automobile cannot hear it, even if it is ringing.

### Was Successful Farmer.

Eck Wilday, who was 65 years of age, was born and reared in the vicinity of Meredosia and was quite a successful farmer. He owned a farm of 320 acres about four miles east of Meredosia, which is considered some of the best land in that vicinity, and with his son, Guy, who was injured in the accident, carried on extensive farming operations. He was a man highly respected and was quite well known in Jacksonville, where he visited quite frequently. He is survived by his wife, who was formerly Miss Sadona Houston, and three children—Mrs. Edward Bond, Mrs. Edgar Burras and Guy Wilday, all of the Meredosia neighborhood. He is also survived by three brothers, Milton and William Wilday of Meredosia and C. R. Wilday of Peoria.

### Was Brother of John Pate.

Mr. Pate is a brother of John Pate of this city and was about 50 years of age. He had resided in Meredosia for a long period and married Miss Altie Leslie, a daughter of A. J. Leslie, a former grain merchant of Meredosia, and is survived by his wife and four children—Dewey, Eugene, Irene and Nadine Pate. Mr. Pate was quite well known both in his home town and in this city, and the many friends of both men will extend their sincere sympathy to the members of

Expenses moderate. Call at Illinois Woman's College or telephone to Main office Illinois phone 415 or Bell 142.

SCHOOL BOOKS. Sell your old school books to the Bargain Book Store.

### WORK ON ALEXANDER

M. E. CHURCH. The first work toward new M. E. church of Alexander was done Friday when workmen began to clear away the charred timbers and wreckage of the old structure. The tree injured by the fire were cut and much progress was made carting away the remains of the old M. E. church that was burned. In but a few days, the church authorities say, this work will be completed and excavations for the foundation will be begun.

Avoid Monday's rush by buying your school books and supplies today at Obermeyer's.

## CRUST ON HEAD ITCHED AND BURNED

So Would Wake Up Nights and Cry. Head Bare in Spots. Cured Entirely in Six Weeks by Cuticura Soap and Cuticura Ointment.

Rockford, Ia.—"My little girl had a hard crust form on her head. Her head had a rash on it and it itched and burned so she would wake up nights and cry. Then it formed into sores and then it turned into a dry crust, and when I combed her hair great locks would come out. Her head was bare of hair in spots.

"Then I used Cuticura Soap and Ointment and they cured her entirely in six weeks and her hair came in lovely. At that time she was about ten years old and now she is twenty-six and has never had any more trouble." (Signed) Mrs. H. J. Wadley, Dec. 14, 1912.

## PAINFUL ITCHING AND BURNING

269 Jackson St., Milwaukee, Wis.—"My trouble began with small speckles on my chest, arms and legs. Later it took the form of little blisters which caused painful itching and burning. In the day I was tormented by the clothing which irritated the eruption and in the night I lost rest from the itching. I used Cuticura Soap and Ointment finding relief in the first day of treatment. In one week I was well." (Signed) Joseph Cascone, Nov. 30, 1912.

For treating poor complexion, red, rough hands, and dry, thin and falling hair, Cuticura Soap and Cuticura Ointment have been the world's favorites for more than a generation. Sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

## Mother's Friend in Every Home

Comfort and Safety Assured Before the Arrival of the Storm.

The old saying—what is home without a mother—should add "Mother's Friend."

In thousands of American homes there is a bottle of this splendid and famous remedy that has aided many a woman through the trying ordeal, saved her from suffering and pain, kept her in health of mind and body in advance of baby's coming and had a most wonderful influence in developing a healthy, lovely disposition in the child.

There is no other remedy so truly a help to nature as Mother's Friend. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant those fibres and muscles which nature is expanding and soothes the inflammation of breast glands.

Mother's Friend is an external remedy, acts quickly and not only banishes all distress in advance, but assures a speedy and complete recovery for the mother. Thus she becomes a healthy woman with all her strength preserved and thoroughly enjoys the rearing of her child. Mother's Friend can be had at any drug store at \$1.00 a bottle, and is really one of the greatest blessings ever discovered for expectant mothers. Write to Brad's Regulator Co., 128 Lamar Bldg., Atlanta, Ga., for their free book. Write to-day. It is most instructive.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

## PROMOTION DAY WILL BE FEATURE

INTERESTING EXERCISES AT CENTRAL CHRISTIAN CHURCH WEDNESDAY.

Exercises Will Be Part of Convention Program—Seventy Five Graduates To Receive Diplomas—National President of C. W. B. M. Here.

One of the features of the convention which is to be held at the Christian church next week will be the promotion exercises of the scholars of the Central Christian Bible School, which take place Wednesday afternoon at 7:30. There have come into the state superintendent of all schools many of the scholars of the school of the Central Christian Bible School, which take place Wednesday afternoon at 7:30. There have come into the state superintendent of all schools many of the scholars of the school of the Central Christian Bible School, which take place Wednesday afternoon at 7:30.

J. H. Smart, Decatur, who leads the "In Memoriam" service Wednesday morning.

seventy-five graduates are listed and will receive graduation certificates from the several departments. Much interest is being shown in this feature both by persons outside and inside Jacksonville.

The local congregation is having a special edition of a souvenir program printed. It will be a twelve page De Luxe booklet, containing a picture of the convention building, Jacksonville's welcome, the program corrected to date, and other matter of interest. These will be distributed during the sessions.

The convention badges have been received. The button at the top has a splendid half tone picture of the church building, taken from the east side; the ribbons below are of royal purple and white with printing of gold "63rd Annual Convention Illinois Christian Missionary Convention, Jacksonville, Sept. 8-11, 13." The whole effect is decidedly handsome.

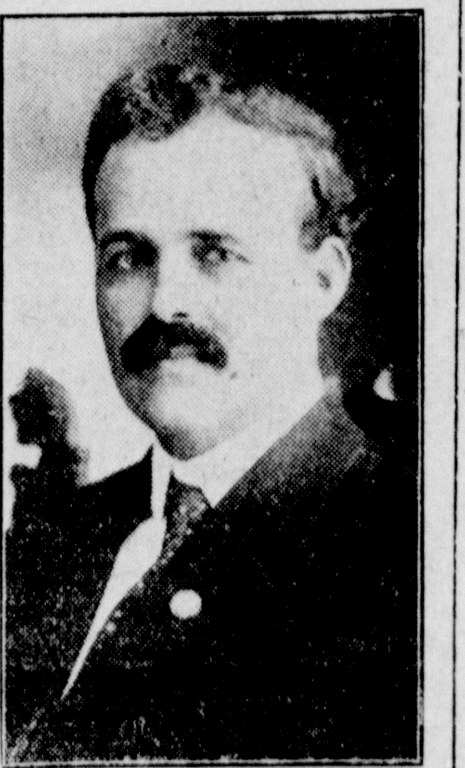

Mrs. Atwater Coming. Members of the local Auxiliary to the Christian Woman's Board of Missions are congratulating themselves that so prominent and capable

a woman as Mrs. Anna R. Atwater, National President of the organization is to be the first speaker of the gathering, speaking on Monday night. A movement is on foot to give a reception in her honor on Monday afternoon, so that the Jacksonville ladies may meet her in a social way. Great things are expected from her address Monday night. Mrs. Atwater is a master of assemblies, a cultured inspiring speaker and will set a high

Andrew Scott, Hoopston, who speaks on "Scriptural Evangelism for the Twentieth Century" in the church efficiency session, Thursday afternoon.

standard for all the sessions. Tuesday morning will be the business session of the C. W. B. M., including the reports of the various departments, the recommendations of the State Board and an address on "Missionary Social Union" by Mrs. S. Thornberry of Jacksonville, President of the Jacksonville Missionary Social Union. Miss Lura V. Thompson, has been Corresponding Secretary of the state for the past eighteen years. During this past year she was married to J. W. Porter, pastor of the Christian church at Rantoul, Ill.

Adam K. Adcock, Duquoin, who discusses the topic, "Elders and Deacons—Shepherding the Church," in the church efficiency session Thursday morning.

and she makes her final report as Corresponding Secretary at this session. She has resigned her office after a long and honorable term of office and her successor will be chosen Tuesday.

## Tuesday Afternoon Program.

Tuesday afternoon there will be reports of committee and addresses by Mrs. Maud Ferris of Taylorville and an address by W. J. Burner, who with his good wife has been for years a missionary in Buenos Aires, Argentina. This session concludes the work of the C. W. B. M. In view of the interests involved and the changes to be made for the coming year it will probably be one of the most important gatherings of the society, that has been held recently. Commencing at 1:15 Tuesday afternoon will be the first of the series of Bible-School Conferences of which C. L. Depew of Jacksonville will be chairman. Three conferences are planned for this hour, one each for elementary, secondary and adult work. These will be led by Miss Lillie Faris, Cincinnati O., Miss Cynthia Pearl Mans of St. Louis,

W. E. Warren, Indianapolis, Ind., secretary of the Board of Ministerial Relief, who speaks Thursday afternoon.

Mo., and E. J. Meacham of Cincinnati, respectively. They are field-workers experts in their individual lines and the sessions are expected to be full of profit. Similar conferences will be held at the Wednesday morning, Wednesday afternoon and Thursday morning sessions.

## ILLINOIS WOMAN'S COLLEGE.

Hall, 2925 Olive street St. Louis, Mo. Sold by druggists.—Adv.

## ONLY ONE RUN SCORED IN 2 GAMES

Philadelphia Wins First Contest 1 to 0 But Second Goes Ten Innings With Neither Side Scoring

Boston, Mass., Sept. 5.—Only one run was scored in 19 innings of baseball between the Philadelphia and Boston teams today, the visitors winning the first game of a double header 1 to 0 while the second contest was a scoreless tie when called on account of darkness at the end of the tenth inning.

The games developed into two pitchers' battles, the first between Quinn who joined the local national league club, but a few days ago and Seaton for Philadelphia. Had it not been for an error by Maranville Quinn would have shut out Philadelphia in this contest.

The locals did not get beyond second base in the first contest. Alexander was opposed by Rudolph in the second game in an even duel.

First game—R. H. E. Philadelphia .000 100 000—1 3 1 Boston .000 000 000—0 0 1 Batteries—Seaton and Killifer; Quinn and Whaling, Rariden.

Second game—R. H. E. Philadelphia .000 000 000—0 0 0 Boston .000 000 000—0 0 1 Batteries—Alexander and Doolin; Rudolph and Rariden.

## RALLY IN NINTH WINS FOR NAPS

Cleveland Scores Three Runs in Last Inning by Rally and Defeats Detroit 7 to 6.

Cleveland, Sept. 5.—By means of a ninth inning rally Cleveland defeated Detroit 7 to 6 today. Jackson opened the ninth with a pass but Lajole hit into a double play. Johnston tripled and scored on a passed ball. Tutwiler's error saved Turner. Graney walked. O'Neill and Blanding followed with singles and the tying and winning runs were scored. Score: R. H. E. Cleveland .010 002 103—7 13 3 Detroit .003 001 001—6 9 1 Batteries—James, Blanding and O'Neill; Willet, Dauss and McKee.

## ILLINOIS WOMAN'S COLLEGE.

Makes a specialty of training young women in all branches of work in which they are interested. Why not attend a school that directs all its energy for you highest development? Catalogues may be had at the book-stores or music stores. For further information along any line of work in which you are interested, call 66 Main office, Illinois phone 415 or 102 Bell phone. Standard work offered in the Academy for students wishing preparatory work, regular College course leading to the Bachelor's Degree. Visitors always welcome. Let us help you plan your work.

## CORN WILL YIELD WELL.

Other cases of dry farming have come to the attention of the Journal and the results have been gratifying. Mr. Rowe, who makes such a careful study of agriculture, has tried it successfully and expects to get well nigh 75 bushels per acre from a field, the top of which has been kept well pulverized.

## Mother of Eighteen Children.

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablets are for sale by all dealers. (Adv.)

## HANER DENIES HE PROFITED BY HOG SERUM DEAL

Former Head of Livestock Commission Says He Lost Money Instead of Making Any—State May Investigate Alleged Frauds.

Friday Phil S. Haner, former chairman of the Illinois Livestock commission and deposed by Governor Dunne after charges of gross irregularities had been made, entered a vigorous denial. Mr. Haner says there is nothing to the story that he made money by buying razor back hogs for the serum testing department and repaid himself with fat, sleek hogs. Four car loads of razor backs were said to have been exchanged this way. It is also charged that Haner made a verbal contract with Joseph Mills, a small packer, just outside of the East St. Louis Stock Yards, to slaughter hogs at \$1 per head, and to yard healthy hogs while being immunized for serum purposes, and that this deal furnished the basis for fraud and corruption.

## Diseased Hogs Sold.

R. O. Shepherd, state agent at East St. Louis, was instructed to supervise the work. The state constructed the slaughtering plant which Mills is now using as his own property, it is alleged. Of the hogs purchased by Mills from June 29, 1911, to June 30, 1912, 1,195 hogs, valued at \$10,000, are unaccounted for says the report.

Mills slaughtered the hogs recognized as diseased, extracted their blood and sold their meat in the open market, and at least two-thirds of the infected hogs were sold for meat, according to the testimony of the employees, who said these diseased hogs were passed upon and inspected by Shepherd, the state's own agent.

The report also says that the finances of the state laboratory have not been properly handled in that the fees and income have not been turned into the state treasury, as provided by law, but that they have been held as private account of the commission and checked upon.

Mr. Haner refused yesterday to give a detailed statement regarding the civil service commission charges until he has had time to consider his reply, but he declared that statements that he had gained by a hog deal, or otherwise, were untrue.

## Says He Lost on Purchase.

"I was very much interested in the laboratory and in getting it started," he said in explaining his purchase of 361 hogs out of his own money, "and when Dr. Peters came here, he said we had no money to buy hogs. I promised him to get the thing started, that I'd buy the hogs and I bought them out of my own money and furnished the hogs to produce the serum."

"I took the hogs back that Dr. Peters didn't want and instead of taking better hogs back, I took the thinner hogs. I lost at least \$750 in this transaction, because the hogs wouldn't fatten for at least three months after having been used for serum purposes."

## State May Try to Recover.

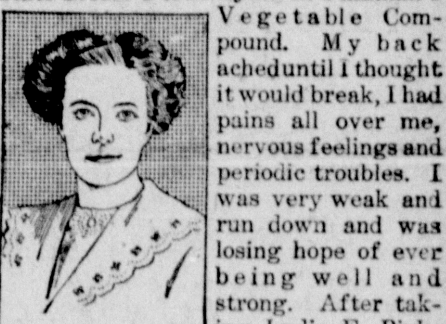

Governor Dunne and the civil service commission have not decided what court action, if any, shall be instituted against Haner and others. It is probable that the question will be taken up with Attorney General Lucey. An effort may be made to recover for the missing hogs, said to be worth \$10,000.

Jasper Vortman of Neelyville paid the city a visit yesterday. He came to visit his niece, Mrs. Rogge, who is ill.

## WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

For Drunkenness, Opium, Morphine, and other Drug Using, the Tobacco Habit and Nervousness. Correspondence strictly confidential.

## LATEST NEWS FROM THE FIELD OF SPORTS

WHITE SOX SHUTOUT  
ST. LOUIS BROWNS

VETERAN CICOTTE HOLDS OFF-POSING BATSMEN TO FOUR SCATTERED HITS.

Taylor, Who Received Tryout Last Spring With the Sox Pitches a Good Game For St. Louis and Chicago's Only Run Is Scored in the Second on Chapell's Double and Schalk's Single.

St. Louis, Sept. 5.—The veteran Cicotte shut out St. Louis this afternoon while Chicago bunched two hits in the second inning for the only run of the game. Wiley Taylor, who received a trial with Chicago this spring, went to the mound for St. Louis and pitched a steady game. Chapell's double followed by a single off Schalk's bat was Chicago's scoring combination. Score:

Cleveland at Detroit.  
New York at Washington.  
Boston at Philadelphia.

## BOSTON DEFEATS LEAGUE

LEADERS THREE STRAIGHT

Batting Rally in Seventh Nets the Braves Three Runs and Wins Game 6 to 3.

Philadelphia, Pa., Sept. 5.—Boston's victory over Philadelphia here today by 6 to 3 was the third straight in the series. The visitors overcame the lead which Philadelphia secured in the fifth inning through hitting Ray Collins' delivery hard, by a batting rally in the seventh, when three runs were produced.

REDS WIN EASY  
GAME FROM CUBS

CINCINNATI OUTPLAYS AND OUT HITS CHICAGO WINNING 9 TO 4.

Evers Uses Sixteen Men During Contest in Effort to Check the Reds' Onslaught—Phelan Bating for the Manager in the Third Scores Three Runs With Home Run Smash.

Chicago, Sept. 5.—Cincinnati won the first game of the farewell series nine to four. In the attack of the visitors, Wickland, Groh and Clarke were the stars, while Phelan, who batted for Manager Evers in a pinch carried off the honors for Chicago when his homer scored Bresnahan and Cheney ahead of him. Score: Cincinnati, A.B. R. H. P. A. E.

NEW YORK ADMINISTRATORS  
SHUT-OUT TO BROOKLYN

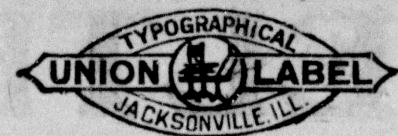

Rucker Could Not Hold Giants With Men on Bases and New York Wins 5 to 0.

New York, Sept. 5.—Brilliant pitching by Demaree, coupled with a return by the locals to their mid-season batting and base running form led to an easy victory for New York in the third game of the series with Brooklyn today. The score was 5 to 0. Rucker could not restrain the champions with men on the bases. Score:

Brooklyn, A.B. R. H. O. A. E.

WILL DEFEND LAMBERTO. Judge M. T. Layman and William N. Haingrove have been retained to defend John Lamberto, the Italian section foreman, who is now in jail charged with the killing of a negro at Yocmans a few days since. Lamberto is held on a coroner's recommendation and is awaiting the action of the grand jury. He will undoubtedly be indicted and his case will probably be heard at the November term of court.

KINDERGARTEN TO OPEN LATER. The Free Kindergarten will not open until Monday, Sept. 15, on account of the hot weather.

## THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

### STOCK MARKET SHOWS STRENGTH

GAINS THROUGHOUT LIST IS REGARDED AS NATURAL REBOUND.

Uncertain Outlook For Money Market and Unfavorable Crop Reports Are Sufficient to Restrain Any Bullish Sentiment—Gains of Many Important Stocks Run From 1 to 2 Points.

(By Associated Press)

New York, Sept. 5.—The tide turned in the stock market today and prices gained generally after a steady decline in the earlier days of the week. It required no great amount of buying to bring about the turn. The readiness with which the list responded to moderate bidding indicated that the week's selling had been largely professional and that it had expanded the short interest to a point which made it vulnerable.

The rise was regarded merely as a natural rebound from the previous decline and there was no evidence of awakening interest on the long side of the market. The uncertain outlook for the money market and unfavorable crop reports were sufficient to restrain any bullish enthusiasm. Aside from the strong technical position of the market, the most potent factor in bringing about the rise was the announcement that more than 90 per cent of Union Pacific's holdings of So. Pacific had been subscribed for, instead of about 80 per cent, as was at first estimated by the underwriters. The Harriman shares rose sharply on the announcement.

Gains of many important stocks ran from 1 to 2 points, although they were scaled down fractionally by profit-taking during afternoon. Copper shares were favored by the advance in the metal to 16 1/2. Movements of currency in the last day or two were less against the banks than earlier in the week and forecasts of the bank statement indicated a smaller cash loss than expected.

A loss of \$1,500,000 was suggested by available figures. Call money did not go above 3 per cent today, compared with yesterday's 4 1/2.

### THE TWELFTH BIRTHDAY.

September 4 the Harmon dry goods house was 12 years old, as September 4, 1901, Leo Frank and son, Louis, took charge of the place and opened the store which has since been so popular with the people of Jacksonville and vicinity. At that time the clerks were Curtis Copp, Miss Anastasia McCormick, Miss Mamie Hogan, Miss Gertrude Livingston and Miss Agnes Devlin. At present the force consists of Mr. Harmon, the proprietor, Lloyd Reed, Miss Jennie Rabjohn, Miss Anastasia McCormick, Miss Rose Devlin, Miss Mollie Burns, Miss Nettie Smith and Miss Chattie Duncan. Thus it will be seen that Miss McCormick is the only one left of the original force, death, matrimony and removal having wrought almost a complete change.

In honor of the event, Louis Frank treated the force to a generous amount of ice cream and other good things.

ST. LOUIS LIVESTOCK MARKET. St. Louis, Sept. 5.—Cattle—Receipts, 1,100; market steady. Choice to firm steers, \$8.00 to 9.00; good to choice steers, \$7.25 to 8.00; dressed and butcher steers, \$5.50 to 7.25; cows and heifers, \$4.75 to 6.75.

Hogs—Receipts, 3,300; market 25c higher. Pigs and light, \$5.50 to 9.20; mixed and butchers, \$8.95 to 9.20; good heavy, \$8.75 to 9.00.

Sheep—Receipts, 1,800; market steady. Muttons, \$3.25 to 4.00; yearlings, \$5.00 to 6.00; lambs, \$5.50 to 8.00; western lambs, \$7.40.

### FOREIGN ADVICES INFLUENCE MARKET

DISAPPOINTING CABLES CAUSE WHEAT BULLS TO LOSE COURAGE.

Foreign Cables, Especially From Liverpool, Are Not Nearly as Strong as Expected—Corn and Oats Weakened With Wheat.

(By Associated Press)

Chicago, Sept. 5.—Disappointing cables had an influential effect today in causing wheat bulls to lose courage. Feeling was nervous at the finish, with prices down 1/4c to 1c net. Corn closed 1/2c to 3/4c down and oats at 1/4c to 1/2c decline. The outcome for provisions varied from 10c loss to an advance of 5c.

Holders of wheat showed a pronounced disposition to take profits and go a little slow. Foreign advances, especially from Liverpool, were not nearly so strong as expected in view of the sharp upturn yesterday on this side. It was explained that Russian offers were more liberal and that there was increased selling pressure from Canada. Then, too, Minneapolis and Duluth sent word of generous arrivals and it was evident that the weather in all directions favored the marketing of the new crop.

Apparent absence of export call acted as a decided drag on the wheat market.

Corn futures weakened with wheat. The trade turned its back on bullish views and determined it was a profit-taking day. Reports of huge shipments from Argentina received considerable attention, particularly a dispatch telling of 289,000 bushels forwarded by the South American country to New York. Oats simply followed with wheat and corn. Commission houses, though, bought on the dip. A speculative leader too gave December support at the decline.

Provisions scored a fairly good advance with hogs.

### CHICAGO LIVESTOCK MARKET.

Chicago, Sept. 5.—Close—Hogs: Receipts, 15,000; market active at 10c to 25c advance. Bulk of sales, \$7.90 to 8.55; light, \$8.50 to 9.20; mixed, \$7.65 to 9.10; heavy, \$7.50 to 8.80; rough, \$7.50 to 7.75; pigs \$1.00 to 5.00.

Cattle—Receipts, 2,000; market slow, weak. Beefers, \$6.90 to 9.15; Texas steers, \$6.70 to 7.75; western steers, \$6.00 to 7.90; stockers and feeders, \$5.50 to 7.90;

### IMPORTANCE OF HOGS IN THE U. S.

VALUE OF THE BEAST HAS BEEN  
RISING RAPIDLY:

For Ages was Condemned and Classified as Lowest—Now Greatest Factor in Supplying Meat For Mankind.

(By W. J. Carmichael, Animal Husbandry, University of Illinois.)  
Centuries ago the hog was regarded as a beast of the mire, and wholly unfit for human food. As such it was entirely condemned for ages, and with it was classed the lowest and filthiest people of the time. It was not until the occurrence of the incident related in Lamb's "Essays

OLD ENGLISH HOG

of Elia," in the "Dissertation on Roast Pig," that people realized the flavor that was present in well cooked young pork. Thus it seems that purely by accident, it was discovered that swine flesh was an edible which could almost, if not quite, satisfy that apparently insatiable desire of man—his appetite.

People gradually came to realize the value of the then feral beast, and took immediate steps towards its domestication. It adapted itself so rapidly and thoroughly to the new environment, and filled a vacant place so satisfactorily, that it has ever

of dry matter in its feed. Of course, when we accept these figures, we should realize that a pig is not able to use the roughages to such an extent as the steer or sheep, and also that it has a much smaller per cent of offal. On account of the economical production in the generally called filthy animal, we find what has been quite commonly known as the "mortgage lifter." Truly it would be entirely so were it not for one dreadful disease—cholera—which has been so prevalent the past years throughout the corn belt, and destroyed thousands and thousands of porkers of all ages.

It is estimated that there are about 62,000,000 swine of all ages in the United States at the present time on an area of 2,970,000 square miles, with a population of about 92,000,000—making just a trifle over twenty head of pigs per square mile, or approximately 67 of a hog per capita. As a comparison with this, it is interesting to note that the total hog population of the world

### BREAD AS FOOD IS DISCUSSED

IS ONE OF THE CHEAPEST  
SOURCES OF PROTEIN.

Exceeds All Other Foodstuffs for Energy and Protein Obtained for the Same Amount of Money—Comparisons Made.

(By Isabel Bevier, Department of Domestic Science, University of Illinois.)

The prime object in bread making is to secure a nutritious, palatable, and attractive form of food. The value of the cereals as food is well understood. It is known that when properly cooked, the cereals yield a large amount of easily digested food for a comparatively small sum of money. One thinks of cereals, and rightly, as the chief source of starchy food, but the peculiar value of wheat bread lies in the fact that it is one of the cheapest sources of protein. Again this form of protein known as gluten which occurs in wheat flour enhances the value of the flour because the gluten has the property of expanding and serving as a frame work for the retention of air or carbon-dioxide. Because this quality is lacking in the protein of corn and oats, neither of these grains is as extensively used for bread. The value of a flour, then, for bread depends upon the quality of its gluten and upon its strength, and this latter quality is usually judged by its capacity to absorb water. Large bakeries conduct experiments constantly to find just the blend of flour that will absorb the greatest amount of bread, or take and retain water.

**Cheap Food and Best Food.**  
It has been understood for a long time that the terms cheap and dear as applied to foods mean not only the amount of money expended, but rather the amount of nutritive materials secured for a given sum, or, to put it in another way, the amount of building material—protein and energy—calories, that can be secured. The following table shows how favorably bread compares with other foodstuffs in these two points.

Amount of protein and end energy obtained for 10 cents expended for bread and other foods at certain assumed prices. 10 cents worth will contain:	Protein Ounces	Calories
Wheat bread, 5 cents per lb.	2.9	2,580
Cheese, 22 cents per lb.	1.2	467
Beef, average, 20 cents per lb.	1.3	444
Porterhouse steak, 25 cents per lb.	1.3	444
Dried beef, 25 cents per lb.	1.3	444
Eggs, 24 cents per lb.	1.3	444
Milk, 9 cents per qt.	1.2	736
Potatoes, 60 cents per bu.	1.2	2,650
Apples, 1 1/2 cents per lb.	1.2	1,370
*U. S. Department of Agriculture, Farmers' Bulletin 487.		

It will be seen that, at the prices quoted above, ten cents expended in bread will secure more than twice the protein obtained from beef, and almost three times the energy; also that ten cents invested in bread at five cents per pound, compared with eggs at 24 cents per dozen, will yield more than twice as much protein and twelve times the energy.

Howard Rawlings of Franklin was among the visitors in the city yesterday.

une and buying has improved, though, of course, there are a few laggards.

"Business failures for the week were 179, which compares with 191 in 1912.

"Wheat, including flour, exports from the United States and Canada for the week aggregate 5,061,585 bushels against 4,481,661 last year."

**Bank Clearings.**  
New York, Sept. 5.—Bradstreet's bank clearings report for the week ending September 4th, shows an aggregate of \$2,830,378,000 as against \$2,722,975,000 last week and \$2,668,912,000 in the corresponding week last year.

	Increase.
New York	\$1,658,101,000 8.5

### QUESTIONS AND ANSWERS.

Question: How and where can I get the serum and virus for immunizing my hogs from hog cholera? How much does it cost? Does it require a specially trained veterinarian to treat them?

Answer: The serum and virus may be obtained from a number of commercial firms in some of the large cities in this and other states at nominal charge of 1 1/2 to 2 1/2 cents per cubic centimeter. It is also prepared at the state laboratories at Springfield under the direction of the state board of live stock commissioners, from whom it may be obtained free of charge, except for the transportation (express). There is at present a shortage at the laboratories on account of the great demand made at this time of year and they are trying to supply the most needy as fast as they can prepare the serum and virus. By all means a trained veterinarian should administer the treatment, as it is very dangerous if not properly done. Most of the large losses due to its use can be traced to negligence and ignorance.

Question: I have 30 sows bred for September farrow and am beginning to be afraid that the cholera will get in and take them all. Is it safe to treat them all now?

Answer: There is considerable danger of abortion following the use of double treatment at the time sows are in pig. I believe it is better to take a chance and let them go untreated, at least until after the pigs are two weeks old or older before touching them with the simultaneous treatment.

Question: It has been reported a number of times in this locality that tankage is not fit for hog feed, as it contains parts of diseased animals and refuse that is thoroughly alive with all sorts of disease germs. Can you give us any information upon this?

Answer: The digestive tankage sent out from slaughter houses which have government inspection and all of them which do interstate business have it, is not supposed to contain refuse or portions from any animals which have been condemned. The waste from their bodies goes for soap fertilizer etc. Even though there should be parts of these animals get into the digester vat by mistake or otherwise, the treatment is much more vital to destroy the germs of any disease on account of the high pressure it is subjected to. It is cooked from 8 to 10 hours with live steam or 40 pounds pressure, which gives a temperature of about 300 degrees F., then it is dried by direct heat of 240 degrees F until thoroughly dry. This long cooking at such temperature must certainly destroy the germs which might be in the refuse at the beginning.

W. J. Carmichael.

### LETTERS FROM CORN BELT (By Sol E. Quizer.)

Ever hit on the first apple and there have been enough ready to bite ever since to keep the market active.

The horn of plenty is no wind instrument.

Often what looks like a desire to serve the world is only an uneasy desire to keep within the circle of attention.

An ego is just like Banquo's ghost—it simply must be laid.  
If there were any other way,  
A fortune could be made.

### MRS. VELLE FINED \$3,500.

Trenton, N. J., Sept. 5.—After pleading guilty, without criminal intent, to the charge of smuggling, Mrs. Annie Velle, of Moline, Ill., was fined \$3,500 in the federal court here today. Her maid was fined \$50 on a similar charge. The fines were paid by Mrs. Velle's husband. Mrs. Velle and her maid were held after disembararking at Hoboken on Aug. 19 on the charge of attempting to smuggle jewelry including a pearl necklace, a gold watch, a ring and several dresses.

### THOUSANDS OF MEN IN GERMAN MANEUVERS.

Annual Avm Maneuvers Will Attract Attention of Germany.

Berlin, Sept. 5.—On the historic plains of Silesia, where the armies of Frederick the Great carried the standards of Prussia just one hundred and fifty years ago, another great many carrying the imperial colors of a united Germany assembled today under the eye of Frederick's descendant, Emperor William II. For the next five days this modern army of 70,000 men, divided into two opposing corps, will engage in the annual Grand or "Kaiser" maneuvers, which are the most important army exercises of the year.

The maneuvers this year are regarded as the most important ever held by the German army. More men are engaged than ever before, while the tests to which they will be put will be unusually severe. Aeroplanes and dirigibles, the latter equipped with wireless outfits, will be employed for scouting purposes and the carrying of despatches. The German army is soon to have a bicycle corps for the first time, and it is expected the various types of machines will be tried out in a practical way during the maneuvers.

Eminent military leaders of many countries are to witness the maneuvers

### IMPROVEMENT OF CITY MILK

SUBJECT DISCUSSED BY UNIVERSITY PROFESSOR.

People Interested in Business Divided Into Three Classes: Producer, Retailer and Consumer—Each Have Their Rights.

(By A. H. Harding, Professor of Dairy Husbandry, University of Illinois.)

For convenience in discussion, the people interested in the milk business may be divided into three classes: The producer, the retailer and the consumer. Each of these classes have their rights, which should be respected, and their responsibilities in connection with the improvement of the business.

The first effort at improving public milk supplies came almost entirely from the health authorities, who acted as representatives of the consumers. Later the retailers took a hand in milk improvement, partly as a means of safe-guarding their own rights and partly through a desire to improve the business. In these attempts at milk improvement, the representatives of each class have attempted: first to protect their own interests and later to improve the general situation. Thus far the

Every raindrop picks up its tiny load of earth.

dairymen have taken little active part in the improvement for a better milk supply. Largely for this reason their own interests have received scant consideration and complaints are commonly made that they have not always been fairly treated.

Even the most superficial consideration of the milk question shows clearly that the producer is much more vitally interested in the sanitary quality of the city milk supply than is any single consumer in the city. The producer is always a large consumer of his own product and has in addition a large financial interest in the milk business.

It is a characteristic of all lines of production that the greatest profits are obtained by catering to the most discriminating trade and furnishing the highest grade product. In the past the milk business has been an exception to the general rule because the milk market has recognized but a single grade of milk. Under these conditions the producer of high class milk had no additional commercial avenue through which to sell his product. The suggestion that milk should be sold in grades, as is the custom with apples, potatoes, wheat, oats and every other product of the farm, will strike man as odd, simply because it is not the present custom. Conditions are rapidly becoming ripe for the introduction of this method of doing business and the market is already beginning to recognize three different ways in which milk is used. Practically every one of care and cleanliness ought to be observed in the production of milk

for baby feeding, milk for general table use and milk for cooking. Because of the varying amounts of care necessary for these three classes of milk, the production of satisfactory baby milk is much greater than that of satisfactory cooking milk. On this account good baby milk is hard to find, while the cooking grade of milk is abundant. The fact that the difference in cost of production of these three grades of milk lies very largely with the producer, is the real reason why the health authorities and retailers have not progressed more rapidly in the matter of establishment of well known grades of milk. The establishment of certified milk as a distinct market grade was one of the first steps in this direction and its success has made possible further progress along this line.

There is need, however, for establishing a grade of baby milk with a lower cost of production than that of the present certified milk. Some of the cities are now beginning to experiment in the matter of establishing recognized grades of milk, and there is little question but that the energy expended along this line will bear much more fruit than has resulted from some of their past attempts in the matter of milk improvement.

Under the present system of buying milk by weight or measure, without any regard to the sanitary quality, any money spent by the producer in improving the sanitary quality is a net loss since there is at present no way by which he is able to get his money back in increased price for his product. By making dirty milk

more profitable than clean milk the present method has effectively blocked progress.

The present is a very favorable time for the milk producer to take an active part in the movement for better milk, because the milk agitation has made the milk consumer generally desirous of obtaining a better milk supply. While he is as strenuously objecting to the raise in price of milk without being fully assured that with the raise in price there is real improvement in quality, yet he is in a mood where he will not seriously object to the raise in price provided he is at the same time convinced that the quality of the higher priced goods is actually better. The milk retailers are likewise very desirous of obtaining and handling a better line of goods. This is due partly to a desire to cater to a more discriminating public and partly to the fact that a large part of their losses are due to dirty milk. They will be found willing to pay a higher price for better goods just as soon as the way is provided for selling the better goods to the public at a higher price.

Under such conditions the producers should by their assistance in the general milk improvement make it plain that they are ready and willing to produce just as clean and high grade milk as the retailers and consumers desire. All they insist upon is that the market grades of milk shall be defined in plain English, so that they may be understood by all parties and that they receive a price which will make the production of the better grades of milk financially profitable.

### MANY YEARS SPENT IN SOLITARY CONFINEMENT.

Jesse Pomeroy Is One of the Most Notorious of Life Prisoners.

Boston, Mass., Sept. 5.—Jesse Pomeroy, probably the most notorious life prisoner in the United States tomorrow will enter up the 37th year of his confinement behind the gray walls of the famous state prison in Charlestown. All of these years have been spent in solitary confinement. This does not mean, however, that he never leaves his cell. If he so desires he is permitted to exercise in the prison yard outside his cell for an hour every day in charge of a guard. But this is while the other prisoners are at work in the shops. He is never permitted to meet or see any person excepting his mother, who comes to see him once a month, the prison warden and occasionally the governor or members of his council.

Pomeroy was a boy of sixteen when he was sentenced to prison for life for torturing and murdering little children. He is now well past his fiftieth year. Much of his time has been spent in study and reading and he is said to be well informed as to current events. But he has never seen an electric car or automobile, never heard a phonograph, never talked through a telephone, and has never ridden in an elevator.

### COMMON SENSE MUST BE USED

GEOLOGISTS DO NOT POSSESS  
HEAVEN-SENT POWER.

All Must Train the Mind to Understand What the Eye Sees—There Is No Royal Road to Learning—Use Common Sense.

(By Fred H. Kay, Assistant State Geologist.)

The geologist is often looked upon as a genius with super-natural knowledge. He is popularly supposed to possess some heaven-sent power by which his X-ray eyes penetrate the opaque strata composing the earth, and to locate therein nature's hidden wealth. In other words, fancy makes him a human divining rod.

In geology as well as in all other sciences, there is no royal road to learning; certain individuals excel in wrestling facts from nature's store house, but all must go through the slow progress of training the mind to understand what the eye sees.

**Nature Works Continuously.**

The same processes that have been in operation down through the ages, are active today. Every raindrop that flows over the surface of the ground into a rivulet, picks up its tiny load of earth and starts on its mission of carrying the mountains and plains out to the sea. Every frost accomplishes its share in loosening up the surface of the earth and making it more accessible to the agencies that are to transport it to its marine resting place. Given time enough, nothing is more changeable than the mountains which we term the everlasting hills.

To the geologist the earth is a huge laboratory in which innumerable changes are occurring always. The wearing away of the land by all the forces of erosion is but one phase. The changes taking place beneath the surface, although less apparent, are no less real and great. The "waters under the earth" are continually dissolving substances at one place and depositing them at another. The enormous limestone caves, familiar to all, are the result of this dissolving process by water, which contains a small amount of various acids capable of attacking limestone. Underground water is responsible for most of the earth's ore deposits, since in the course of centuries, it is able to concentrate within small areas, extremely large amounts of material which otherwise would be too widely scattered to be of use to man.

**Nature's Laws Unchangeable.**

The laws of nature are unalterable. The chemical elements behave precisely the same whether in the laboratory or in the ground or in the star from which a ray of light requires a hundred of years to reach our eyes. Little by little these laws are being worked out. The task is painfully slow, but enough is known of nature's processes to render the geologist extremely useful to the practical, everyday commercial world as well as to the realm of theory.

At the state geological survey a thousand letters are received regarding the location, quantity and quality of coal, petroleum, lime, lead, zinc, clay and other resources, to one in which the author desires to know the present day theories concerning the origin of these materials.

The geologist then, possess no weird powers of divination. Through years of training and experience he has come to understand some of the processes which nature employs, and using the facts which he has gathered with infinite care and detail, he endeavors to interpret correctly what he sees. Not only does he attempt to unravel history made long before man swarmed the earth, but he also reaches out to the necessities of a very busy, and a very present world of men, telling this one where to dig his shaft for gold, and that one where to drill his well for oil, and keeping pace with the commercialism of the age, he compels mother earth to yield her wealth before he will publish her history.

As far as records show Pomeroy has served in solitary longer than any other prisoner in America and, unless the commitment order is changed, he will have to be kept in that manner until he dies. No great effort has ever been made to obtain a pardon for him, but some years ago the American Society for the Promotion of Criminal Anthropology petitioned the governor to remedy the solitary confinement clause of Pomeroy's sentence on the ground that such punishment is not in accord with modern public sentiment. But before the governor and his council had time to consider the petition an ingeniously made tool was found on the prisoner and the matter was dropped promptly. More recently the famous prisoner made a desperate effort to regain his freedom and did succeed in escaping from his cell. With the aid of a tool or tools which the prison authorities have never located Pomeroy cut the bars of his cell door and was quite a distance down the prison corridor before he was discovered and captured by the guards.

### HIGH PRICES SUSTAIN PURCHASING POWER

AGRICULTURAL COMMUNITIES  
HELPED BY HIGH PRICES FOR  
FARM PRODUCTS.

Reduced Harvests Calculated to Ultimately Effect Railway Freight Traffic—Revival of Activities in Business is Becoming More Pronounced With the Approach of Fall.

New York, Sept. 5.—Dun's Review tomorrow will say:

"Early promise of another year of remarkable crops will not be fully realized, yet the purchasing power of the agriculture community is sustained by high prices for the leading farm products. Official confirmation of considerable deterioration in cotton caused a sharp rise in that staple and corn advanced on a continuance of hot, dry weather.

"The reduced harvests are calculated to ultimately have some effect upon railway freight traffic but it is gratifying that sentiment remains

cheerful in spite of the less favorable outlook in certain directions.

"While the delay in the adoption of the pending tariff bill acts as a check, business has nevertheless emerged from its customary summer lethargy and with the approach of the fall season the revival of activity is becoming more pronounced.

"Failures this week numbered 205 in the United States against 243 last year and 19 in Canada compared with 21 a year ago.

**Bradstreet's Review.**

New York, Sept. 5.—Bradstreet's tomorrow will say:

"Business, though irregular tends to broaden, but there is a degree of conservatism, more in evidence in the drought afflicted parts of the southwest than elsewhere. That restrictive influences intermingle with favorable factors cannot be denied; but in a general sense, affairs are more optimistic than otherwise.

"The week's developments have been quickened by fall festivals, by the ending of the vacation season, by improved sales of commercial paper and by the actual necessity of covering requirements.

"In the west trade is normal or better and demand, though displaying conservatism, is predated on the knowledge that supplies are light and in consequence, the turn-over has enlarged.

"Southern advices suggest that uplift is on, reports are more sanguine and buying has improved, though, of course, there are a few laggards.

**Caught a Bad Cold.**  
"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah E. Duncan, of Tipton, Ia. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely." For sale by all dealers. (Adv.)

## DR. GEO. N. KREIDER SEES TWO NOTED OPERATIONS.

Springfield Physician Writes to Dr. Carl E. Black of Work Observed Abroad.

Dr. Carl E. Black is in receipt of a letter from Dr. George N. Kreider of Springfield, who left Springfield July 24 for Europe and returned home this week. From Aug. 6 till Aug. 12 he was in attendance at the International Congress which convened at London.

"At this congress," said Dr. Kreider, "there was in attendance 8,000 prominent medical men from all over the world. My attendance was altogether on the surgical section, where some remarkable papers representing the enormous advance in the theory and practice of surgery were presented. Advances noted particularly concern treatment of diseases of the brain, spinal cord and diseases and injuries of the heart and lungs, and the successful treatment of ulcers and cancers of the abdominal organs, all of which have made enormous strides in the last five years. In London I witnessed two operations by Sir Arbuthnot Lane, in the removal of the entire large bowel.

"At Lausanne I witnessed the result of what is considered one of the most remarkable feats ever performed in surgery. Five years ago Professor Roux operated on a boy of 13 who had swallowed concentrated lime and was dying from starvation from the resultant stricture.

"The operation consisted of taking a piece of bowel from the intestines, then joining the two ends together, and the part from which the piece had been removed. Professor Roux then passed one end of the piece of dislocated bowel into the stomach, where it was fastened; and then a tunnel was made between the ribs and skin a little to the left side, and the upper end attached to the esophagus above the stricture.

"The boy, now 18 years old, is working as a surgical nurse in the hospital and is in excellent health. It required nine operations before the feat was finally accomplished."

**NEW FALL SATIN HATS: BEST GRADE ONLY \$1.75 AT HERMAN'S**

For full particulars call or write William Batz, Executor of the will of Herman Freitag, Deceased.

Garland & C's boys clothing is best to buy, economy-one reason; why?

**THE TEMPERATURES**

The temperatures for Friday, according to G. H. Hall, weather observer at Alexander, were: maximum 95, minimum 64.

**QUICK RELIEF FOR RHEUMATISM.**

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.—Adv.

## SOCIAL EVENTS.

William A. Davidson, who resides northwest of Jacksonville was given a happy surprise by a number of his neighbors and friends, Friday evening, the occasion being his birthday. The friends gathered and went in a body to the home and it is needless to say that Mr. Davidson did not understand the meaning of it all until he was reminded that they came to help him celebrate his natal day. Naturally Mrs. Davidson knew of the friends intentions, so splendid refreshments were served and the time spent in a most enjoyable manner.

Among those present were Mr. and Mrs. Harry Perry and sons, John, Robert and Harry; Mr. and Mrs. E. G. Dewees and daughters, Pearl, Ruth and Ruby; Mr. and Mrs. Samuel Bridgeman and son John; Mr. and Mrs. G. W. Patterson; Mrs. Emma Johnson and children Clyde and Earl; Robert Davidson of Milton; Allen Beadles and Miss Edith French of Detroit, Pike County; Mrs. Bertha Whitlock, Miss Martha Patterson, Ray Patterson and Samuel Wood.

Mrs. Ralph Frost elegantly entertained a company at a lawn party at her home on North Fayette street Thursday evening in honor of Miss Grace Emmerson of New York and Mrs. Joseph Ash of Winchester. Among the guests were Mr. and Mrs. John Nolley and family and Mr. and Mrs. J. O. Ash of Winchester. The tables were set under the trees and a delicious dinner was heartily enjoyed by all and many compliments were paid the accomplished hostess for her skill in preparing and serving the good things of life.

Yesterday morning Miss Clara Cobb, the newly elected principal of the first ward public school, invited to her pleasant home on East State street all the teachers to be in the building. The ladies were asked to come at 10:30 and they responded, bringing their sewing and enjoying the hours most pleasantly.

At the noon hour all were invited to the dining room where a beautiful dinner was spread and enjoyed by all the guests. The table was well supplied with an abundance of the good things of life and the ladies did ample justice to all that was offered them.

Miss Cobb has thus wisely begun the school year by endeavoring to bring into close touch and hearty feeling the teachers who are to be under her supervision. The first ward will have a corps of instructors who will begin the year in full accord with the principal and each other. Those present were Misses Clark, Shannon, Loneragan, Andrews, Phillips, English, Ator, Mathers, Mansfield and Fanning.

An informal 5 o'clock dinner was given Friday evening by Mrs. Frank Florer of North Church street in honor of her sister, Miss Alice Plouer, who departs next week for her work in the school for the deaf at Mt. Airy, Penn. The other guests were Mrs. Walter Moore of Indianapolis, Miss. Miss Clara Moore and her guest, Miss Leonora Hess of Lanark, Ill., Miss Stella Stewart of Mt. Airy, and Miss Ruth and Edith Wyckoff, Miss Idella Walton and Hazel Strawn. The dinner was served perfectly and the event was one of great pleasure.

An ice cream social was given Friday evening on the lawn of the residence of Mrs. W. E. Boston of 544 Hardin avenue by the entertainment committee of Rebekeh lodge No. 13. The committee comprised of Miss Fern Haigh, chairman, Miss Grace McCarty, Mrs. J. L. Pine, Odis Erney and Clark Rothwell, were assisted by Mrs. W. E. Boston, Miss Ruth Hall of Prentice and Mrs. C. Berstrom and their work, from the hanging of the Japanese lanterns to the providing of the Victor graphophone for music bespoke especial care for the entertainment of the guests and the success of the social.

It was a crowd of merry picnickers who left the city yesterday when the members of Mrs. Nelson's class at Grace church made their way to the farm of Mrs. Lincoln Cowdin in Joy Prairie. Cherry's carryalls bearing the members of the class left the church for the home of Mrs. Cowdin at 9 o'clock. After the picnickers had eaten until they could refuse anything and everything they enjoyed a social time until 3:30 when they were surprised by Mr. Cowdin with a forty-five pound watermelon. After listening to a musical treat they again sat down to a feast of good things and started on their homeward way as the sun was sinking in the west after a day of real rest and enjoyment.

School opens Monday, this is the final day for getting the boys outfit. See Knoles stock.

**TO THE PUBLIC.**

The following theatres and resorts of amusement employ union musicians and are fair to union labor. Scott's Airdome, Scott's Galety.

### MORTUARY

#### Carver.

Word has been received in the city of the death of Dr. Joseph Carver, a former resident of Bluffs but who for a number of years has been practicing his profession in Ft. Scott, Kan. He is survived by his wife and two children.

### FUNERALS

#### Bobbitt.

Funeral services for John Wesley Bobbitt were held at the late residence, 235 East Michigan avenue, Friday morning at 10 o'clock in charge of Rev. H. S. Alkire, pastor of the Brooklyn M. E. church, in the presence of a large number of relatives and friends. Music was furnished by a quartet composed of Miss Ethel Reeve, Miss Faye Alkire, Rev. Mr. Alkire and W. W. Gilliam and the many beautiful flowers were cared for by Miss Lota Weigand, Miss Melissa Smith and Miss Margaret Coffman.

Interment was made in Diamond Grove cemetery and the bearers were C. D. Jackson, V. Johnson, Fred Seacared for by Miss Leta Weigand, and B. Copmeyer.

#### Wolford.

The funeral of Mrs. Charles Wolford, who died Wednesday evening in Bluffs, took place Friday morning at 9 o'clock from the family residence. Interment was made in Green cemetery. She was the daughter of Mr. and Mrs. James Kesterson and had only been married two years. Besides her husband she leaves one child.

#### Manley.

The funeral services of Mrs. Norah Manley will take place this afternoon at 4 o'clock from the Christian church in Franklin, in charge of the pastor, Rev. J. E. Teaney. Interment will be made at Lottant, Ill. The remains have been at the undertaking parlors of Williamson & Cody and will be taken to Franklin this afternoon, accompanied by her sister, Mrs. F. M. Dougan, and son, Burdett Dougan. Mr. and Mrs. Newton Reinbach, Mr. and Mrs. W. M. Reese, Mr. and Mrs. John Votsmeier and Mrs. J. E. Teaney were among the Franklin people in the city yesterday to see Mrs. Dougan.

Mrs. Manley was formerly Miss Norah Avery and she was born 50 years ago in Lottant, Ill. For several years she was engaged in school teaching, in which work she was quite successful. She was a woman of lovable disposition and faithful to her many friends. She was affiliated with the Christian church and ever took an interest in church work.

She married Dr. W. C. Manley about seven years ago and he passed away Sept. 19, 1912. Mrs. Manley's brother, Frank M. Avery of Butte, Mont., came here to attend the fu-

### GRADUATES MAKE GOOD.

If you are planning to become a successful teacher, or go into professional work, arrange to enter Illinois Woman's College. Unusual advantages in music, expression and domestic science. ### ATTENDED SISTERS' WEDDING.

Mr. and Mrs. Harry Perry and children Doris and Eric, have returned from a visit with relatives in Galesburg. While there they attended the double wedding of Mr. Perry's sisters, Ethel and Betty Perry daughters of Mr. and Mrs. J. H. Perry who formerly resided in this city. Miss Ethel married Glen Berglund and Miss Bettie became the bride of Otto Seastadt.

You will find everything the children need for school at Obermeyer's and you can buy in comfort today.

### WOODSON CHRISTIAN CHURCH.

Miss Zella Crain was recently unanimously elected superintendent of the Bible school in place of Bert Fitzsimmons, who has returned to his work at Eureka college. Mr. Fitzsimmons made an excellent record, but the people of the church and Sunday school hope that by united effort still greater success may be achieved in the future. The pastor of the church, Rev. Ira C. Smith extends a cordial invitation to the public to be present at Sunday school and to attend the various church services.

Dashing best describes the style in hats shown by Garland & Co. for fall.

### MORGAN COUNTY COURT.

The September term of the Morgan county court will convene Monday, the 15th, and Friday was the last day of service. The docket will be rather light, as few new cases have been filed.

While they last a \$1 fountain pen free with every \$3 purchase of school supplies at Obermeyer's.

### MATRIMONIAL

#### Robb-McCord.

Friends in Jacksonville will be surprised to hear of the marriage last week of Ralph Robb of Waynesville to Miss Eva McCord of Kinney, Ill. Mr. Robb was graduated from Illinois college in 1911 and has since been engaged in teaching. He is now the principal of the high school at Waynesville. The bride is a young lady of considerable musical and literary attainments. She received her education at Northwestern university, Evanston. Mr. Robb is the sixth member of his class to be married.

#### Lyons-Black.

George Lyons and Bertha Black were married Thursday by Squire Dyer. At his office on West State street. They will reside in this city.

Splendid showing of boys suits and trousers at Knoles.

### CITY AND COUNTY

Thomas Brown of Sinclair was among the Jacksonville visitors yesterday.

T. A. Fritchey, of Olney, Ill., brother of Secretary Paul B. Fritchey, is here for a short visit. He intends to be at Harvard university this winter where he will study law.

School books and supplies, everything that's needed at Obermeyer's. N. R. Christiansen, engineer at the power house of the Illinois Traction system at Venice, arrived yesterday to take the place of the chief engineer of the Railway and Light company, Joe Fernandes, who begins his vacation tomorrow.

### FRESH OYSTERS. BARR & HUFFMAN.

Miss Ruth Neff of Chicago, who has been a trimmer in Gage Bros. is expected in the city today. She will take a position in a millinery parlor soon to be opened by Miss Margaret Harner at her home.

At Hall Bros. there is an exhibition a sample of Reid's Yellow Dent corn, raised on the W. E. Hall farm of south of the city by Ralph Crabtree, which seems to have made a good crop despite the drought. Mr. Crabtree is using the crop for ensilage.

### THE BIRTH RECORD.

Born to Mr. and Mrs. Elmer Beasall of Pennsylvania avenue Friday, a six pound son, Harry Beasall.

### FARMER RESISTING ARREST KILLS SHERIFF FLEMING

Without Warning Opens Fire With Shotgun—Later Commits Suicide.

Sullivan, Ill., Sept. 5.—While attempting to arrest Nimrod Huff, a young farmer, and son of Attorney Rufus Huff of this city, Sheriff Fleming of Moultrie county was shot and instantly killed by Huff, who then ran across a field and committed suicide with the same weapon.

The double tragedy was enacted late this afternoon when the sheriff went to the Huff farm, a mile outside of town to arrest Huff on a charge of making a murderous assault on Miss Ada Fite his sweetheart, who is employed in the home of Terry Bland in this city. During the afternoon Huff came to town and went direct to the Bland home. He quarreled with Miss Fite, and according to the story she tells said he was going to kill her. He made several slashes at her with a corn knife cutting a deep gash in her right arm. The matter was reported to the sheriff Fleming and a warrant for Huff's arrest was issued and the sheriff went to the Huff farm to serve it.

Huff met him in the front yard and without warning opened fire with a shot-gun when Fleming was less than twenty feet away. The load of shot struck the sheriff in the abdomen, killing him instantly.

Huff then ran across a meadow and called Tom his brother to come but before the latter reached the side he placed the muzzle of the weapon against his breast and pulled the trigger, the heavy charge of birdshot tearing a hole through his body and causing instant death.

The coroner's inquest will be held tomorrow morning.

First showing of fall neckwear at Knoles clothing store.

### WITH THE SICK.

Mrs. Joseph L. Capps underwent an operation Friday morning at Passavant hospital. Her condition last night was favorable.

Charles Mason, the little son of Mr. and Mrs. Lee Mason of Greenwood avenue, who has been seriously ill is reported better.

A guaranteed watch given free with each boys suit at Garland & Co.
